## Book Reveals Secrets to Transforming Setbacks Into Success

Facing adversity is a part of life. It is up to those challenged as to how these obstacles will impact their lives. In this inspiring new book, *Stack the Logs!™ Building a Success Framework to Reach Your Dreams*, Frank F. Lunn describes how his relationship with his father and his young son’s devastating diagnosis of leukemia led to a new formula for success based on a tried and true philosophy. The result is a remarkable lesson on how you can get the most out of life.

Lunn, who has a successful entrepreneurial background, engages you from the very first pages. He describes an experience with his late father, which provided the foundation for the book, and details his own son’s frightening fight against cancer. Lunn tells of a simple note in a birthday card from his father about how “stacking the logs” one at a time—making life choices, one by one—was the only route to success and how it suddenly became clear this simplistic idea was truly profound.

**In this compelling book, you’ll discover how to:**

- Become your own success consultant.
- Build your dream life.
- Achieve everything you ever wanted to achieve.
